

WUBAT

Website User Behavior Analysis Tool

Annual Service Agreement Website User Behavior Analysis Tool

**“The knowledge to
make informed
business decisions
about your website.”**

WUBAT provides real-time, client side website analysis for marketing managers to make informed decisions. Summaries are provided to you in management reports.

- Which site visitors come from.
- What content and products they look at and how long they stay.
- Which navigational paths they take through your site.
- The program involves simple coding that is added to your web site and does not effect your website in any way.

Complete & Fax to 310-744-0013
